# Turkish Journal of Anaesthesiology & Reanimation

## Aims and Scope

The Turkish Journal of Anaesthesiology and Reanimation (Turk J Anaesthesiol Reanim) is the open access, online-only, and scientific publication organ of the Turkish Society of Anaesthesiology and Reanimation. The journal is published in accordance with independent, unbiased, and double-blind peer review principles. The journal is published bimonthly, in February, April, June, August, October, and December.

The publication language of the Turkish Journal of Anaesthesiology and Reanimation is English, and the journal requires UK spelling. When preparing their manuscript, authors should use British spellings throughout. However, the journal welcomes manuscripts both in Turkish and English for evaluation; however authors of articles written in Turkish are required to provide the journal with the English version of their accepted article prior to publication.

The aim of the journal is to contribute to the literature and field of anaesthesiology by publishing clinical and experimental research articles, case reports, letters to the editor, study protocols, and scientific conference proceedings that are prepared in accordance with the ethical guidelines in the fields of anaesthesiology, intensive care, and pain therapy. As of 2022, Turkish Journal of Anaesthesiology and Reanimation will not give as much priority to case reports and letters to the editor in the evaluation and publication process. Before submitting your manuscript, please take this into account.

The target audience of the journal includes specialists and medical professionals working in the fields of anaesthesiology, intensive care, and pain therapy.

The editorial and publication processes of the journal are shaped in accordance with the guidelines of the International Committee of Medical Journal Editors (ICMJE), World Association of Medical Editors (WAME), Council of Science Editors (CSE), Committee on Publication Ethics (COPE), European Association of Science Editors (EASE), and National Information Standards Organization (NISO). The journal is in conformity with the Principles of Transparency and Best Practice in Scholarly Publishing (doaj.org/bestpractice).

The Turkish Journal of Anaesthesiology and Reanimation is indexed in PubMed Central, Web of Science - Emerging Sources Citation Index, China National Knowledge Infrastructure (CNKI), TUBITAK ULAKBIM TR Index, EMBASE, Scopus, EmCare, CINAHL, ProQuest, Gale.

Processing and publication are free of charge with the journal. No fees are requested from the authors at any point throughout the evaluation and publication process. All manuscripts must be submitted

via the online submission system, which is available at [www.turkjanaesthesiolreanim.org](http://www.turkjanaesthesiolreanim.org). The journal guidelines, technical information, and the required forms are available on the journal's web page.

All expenses of the journal are covered by the Turkish Society of Anaesthesiology and Reanimation. Potential advertisers should contact the Editorial Office. Advertisement images are published only upon the Editor-in-Chief's approval.

Statements or opinions expressed in the manuscripts published in the journal reflect the views of the author(s) and not the opinions of the Turkish Society of Anaesthesiology and Reanimation, editors, editorial board, and/or publisher; the editors, editorial board, and publisher disclaim any responsibility or liability for such materials.

### Open Access Statement

The Turkish Journal of Anaesthesiology and Reanimation is an open access publication, and the journal's publication model is based on Budapest Open Access Initiative (BOAI) declaration. All published content is available online, free of charge at <https://turkjanaesthesiolreanim.org/EN>. Authors retain the copyright of their published work in The Turkish Journal of Anaesthesiology and Reanimation. The journal's content is licensed under a Creative Commons Attribution (CC BY) 4.0 International License which permits third parties to share and adapt the content for any purpose by giving the appropriate credit to the original work.

You can find the current version of the Instructions to Authors at: <https://turkjanaesthesiolreanim.org/en/instructions-to-authors-1029>.

## Contents

### Editorial

#### One Topic, Two Opinions

- The Impact of Anaesthesia Drugs and Techniques on Cancer Recurrence 318  
*Juan P. Cata, Ekin Güran*
- The Impact of Perioperative Anaesthesia Management on Cancer Recurrence 321  
*Oscar Díaz-Cambronero, Pilar Argente Navarro*

### Review

#### Intensive Care

- Prognostic Value of PCO<sub>2</sub> Gap in Adult Septic Shock Patients: A Systematic Review and Meta-Analysis 324  
*Prihatma Kriswidyatomo, Yudhistira Pradnyan Klopang, Merlin Guntur Jaya, Ricardo Adrian Nugraha, Corinne Prawira Putri, Dana Hendrawan Putra, Nabila Ananda Klopang, Taufan Adityawardhana, Nivanda Yögiswara, Nancy Margarita Rehatta*
- Role of Thromboelastography and Thromboelastometry in Predicting Risk of Hypercoagulability and Thrombosis in Critically Ill COVID-19 Patients: A Qualitative Systematic Review 332  
*Sunaina Tejpal Karna, Pooja Singh, Zainab Ahmad Haq, Gaurav Jain, Alkesh Khurana, Saurabh Saigal, Jai Prakash Sharma, Vaishali Waindeskar*

### Original Articles

#### Airway Management

- A Comparative Evaluation of 2 Videolaryngoscopes as an Intubation Aid in a Simulated Difficult Airway: A Prospective Randomised Study 340  
*Ajay Kumar, Anupma Taluja, Bhavna Saxena, Puneet Dwivedi*
- A Survey of Current Practices and Adherence to Coronavirus Disease Airway Management Guidelines Among Frontline Healthcare Professionals in a Resource-Limited Country 346  
*Amber Gulamani, Faisal Shamim, Sehrish Khan, Sohaib Hashmi, Shemila Abbasi*
- A Comparison of the Effectiveness of Videolaryngoscopy and Macintosh Laryngoscopy in Intubation Attempts on Adult Patients 352  
*Haydar Bektaş, Sıtkı Göksu, Elzem Şen*

#### Cardiovascular and Thoracic Anaesthesia

- Cardiopulmonary Exercise Testing as a Predictor of Postoperative Outcome in Patients Undergoing Oesophageal Cancer Surgery Following Neoadjuvant Chemotherapy 358  
*Aditi Suri, Seema Mishra, Sushma Bhatnagar, Rakesh Garg, Sachidanant Jee Bharti, Vinod Kumar, Nishkarsh Gupta, Sunil Kumar, Atul Sharma, Suryanarayana Deo*

#### Obstetric Anaesthesia

- Development and Validation of a Turkish Version of Obstetric Quality of Recovery-10 366  
*Betül Kozanhan, Munise Yıldız, Ayşenur Polat, Oğuzhan Günenç, Sami Mahmut Tutar, Mehmet Sinan İyisoy, Nur Gözde Kulhan, Pervez Sultan*

## Orthopaedic Anaesthesia

- Pregabalin Versus Duloxetine on Postoperative Analgesic Requirement Following Lower Extremity Trauma Surgeries: A randomised, Clinical Trial 373  
*Alisha Chachra, Vanita Ahuja, Deepak Thapa, Satinder Gombaz, Ravi Gupta, Sandeep Gupta*

## Paediatric Anaesthesia

- Dexmedetomidine–Ketamine or Dexmedetomidine–Midazolam Nebulised Drug Combination as a Premedication in Children: A Randomised Clinical Trial 380  
*Tanvi Dhiman, Versha Verma, Ravinder Kumar Verma, Shelly Rana, Jai Singh, Isha Badhan*

## Case Report

---

### Cardiovascular and Thoracic Anaesthesia

- Colour Doppler Imaging of the Ophthalmic Artery During Heart Transplantation 388  
*Eda Balci, Zeliha Ash Demir, Aysegül Özgök*

## Letter to the Editors

---

- Lumbar Plexus Block Performance for Femur Fracture for a Hamamy Syndrome Patient 392  
*Yavuz Gürkan, İlayda Kalyoncu, Cemil Cihad Gedik, Mete Manici, Emel Gönen*

- Comment on: Prompt Detection of Intravascular Migration of Cervical Epidural Catheter in Superior Vena Cava Avoids Impending Disaster! 394  
*B. Malaka Munasinghe, U. Pasindu M. Fernando*

## Author's Reply
